

CARPET CLEANING

Our system provides the newest technology in low moisture, polymer surfactant cleaning, and orbital cleaning equipment. It is a highly concentrated, deep cleaning, neutral pH cleaning solution with soil retardant and fast drying properties.

Our products will clean and encapsulate even the worst stains - the unique property of this 3rd generation proprietary formula increases the surface area of the suspended soils and makes the encapsulated, crystallized soils easier to remove with your vacuum. Any remaining formula retards resoiling and makes vacuuming more effective.

ONE-STOP SHOP

Established in 2004, CFS provides turnkey services which include janitorial, maintenance, and construction services for retail, medical, industrial, commercial, and institutional clients.

President and CEO, Patrick Walker, believes providing a “one stop shop” for unparalleled service and responsiveness allows his clients to sleep better at night. CFS clients include shopping center managers, airports like Hartsfield-Jackson Atlanta International, and colleges/universities like Georgia Piedmont Technical College and Georgia College and State University in Milledgeville. Crossing state borders, the company also provided janitorial services to courtrooms in Nashville, Tennessee and concrete polishing for an art warehouse in Delray Beach, Florida. No matter what or where the job, CFS can build, maintain, and restore it - and our repeat clients are proof that we deliver on this promise.

PREMIER JANITORIAL SERVICES

The logo for Consolidated Facility Services features a green starburst icon to the left of the word 'CONSOLIDATED' in a bold, sans-serif font. Below 'CONSOLIDATED' is the phrase 'FACILITY SERVICES' in a smaller, all-caps font, with 'FACILITY' and 'SERVICES' separated by a vertical line.

WE CARE ABOUT OUR CLIENTS

Find out how our orbital cleaning equipment can extend the life of your carpet.

Consolidated Facility Services is a commercial janitorial, maintenance, and construction company that services retail, medical, industrial, commercial, and governmental clients. We focus on providing clean, safe, and well-maintained facilities at affordable rates. We provide turnkey programs that operate 24 hours per day, 7 days a week, 365 days per year. What can we do for you?

PREMIER FLOORING SERVICES

We provide complete flooring solutions, and are a proven leader in the planning and installation of high-performance industrial flooring, coating, and lining systems designed to provide superior chemical, impact, and abrasion resistance.

We offer an attractive alternative for commercial flooring - polished concrete. It allows for cost savings, is more resistant to high foot traffic, requires less maintenance with a longer service life, is resistant to moisture transmission issues, offers high light reflectivity, and is sustainable.
